

Infectious

Overkill

I'm a wartime killer, I'm a man
I'm a peacetime killer
Doin' the best I can

Bless yourself with a fiery hand,
Spit on the place you stand.
Don't make amends for what you do,
Or move on your demands.
Imagination running wild!
We're all an only child...
Product of our environment
Cut blown and styled

I'm a wartime killer.
I'm a man.
I'm a peacetime killer!
Doin' the best, the best I can.

I adapt to nothing, and nothing pleases me.
I'm a loaded pistol!
Just you wait and see.

Infliction, I am here.
Infection, where do we go from here?
Inception, made it clear,
As I move into the plan...

Hey! Hey! Hey!
At birth I made a deal,
Called into the killing fields I go.

I'm a wartime killer, I'm a man
I'm a peacetime killer
Doin' the best, that I can.

I adapt to nothing, and nothing pleases me.
I'm a loaded pistol!
Just you wait and see.

Bless yourself with a fiery hand,
Spit on the place you stand.
Don't make amends for what you'll do,
Or move on your demands.
Imagination running wild!
We're all an only child...
Product of our environment
Cut blown and sty-y-y-yled.

I'm a wartime killer.
Ya know what I am.
I'm a peacetime killer!
Doin' the best, best that I can.

Ya I'm a man.
Wartime killer.
Ya man...
