

Powersurge

Overkill

Leave? Don't try; they die to get inside
A falling out between you and your pride
No, don't go, there's something you should know:
This blinding light can tear apart your soul
Shattered dreams are not all that they seem
The light can change from white to blue to green
Left to right; there's power in the night
And the powersurge driven by the light!

~Power~ building up
~Power~ all around you
~Power~ You feel it
~Power~ A powersurge

Stay away, there's something I must say:
This light reduces all that's in it's way
In the dark ignited by a spark
A fire burns, a fire makes its mark
See the flash, a mountain turns to ash
Recollection, echoes of the past
Right to left; power's what you get
And the powersurge isn't over yet!

~Power~ building up
~Power~ It's coming back
~Power~ Feel it
~Power~ Powersurge!

Coming out of the sun
There are battles to be won
Colors change from blue to red
Forgotten heroes, piles of dead
A mass of steel down in flame
Powersurge remains the same
Commandeer turns to dust
The mass of steel begins to rust...
