

Revelation

Overkill

Got a better night, got a better for somebody kill me
Got a better tight; for me it seem better that I ever had known
before
How do you see with blindness all around you? How do you unders
tand?
And when you see the enemy surround you, when do you show hand?

Got to leave it alone
Call me a nation
Got to leave it at home
Call me a brand new revelation, a new revelation!

I am a homicide, just a shadow waiting for a casket
I am preoccupied; you know I think someone want to kill me
How can you bleed with vultures all around you? How can you give them hope?
How can you sleep with murderers inside you? I could never cope

Got to leave it alone
Call me a nation
Got to leave it at home
Call me a brand new-

I feel your cold hand lying over me
I feel the underside, your generosity
And I hear the angels singing; do they sing for me?
I feel your cold hand, I feel your cold hand...

How can you sleep at night.?.
How can you bleed with vultures all around you? How do you understand?
How can you sleep with murderers inside you? When do you show your hand?

Got to leave it alone
Call me a nation
Got to leave it at home
Call me a brand new-
Got to leave it alone
Call me a nation
Got to leave it at home
Call me a brand new revelation, brand new revelation.!.
.
