

Stone Cold Jesus

Overkill

Bought a one-way ticket to the resurrection
~Got devil gone down on me~
It's a non-stop, no meal, no connection
~Devil, devil all over me~
Here, baby, here, baby, plant one on your daddy's cheek
~Got devil all over me~
I'll be gone for a minute but no more than a week
~Devil, devil all over me~

Gone through livin' just for dyin', hear what I say:
Tacked to a six by nine to please us
Look like you're what you want
You're a stone cold Jesus, a stone cold Jesus

There's a movement to, yeah, there's an inclination
~Got devil gone down on me~
With a one-man, two-bit congregation
~Devil, devil all over me~
Here, baby, there, baby, hammer down on the weak
~Got devil all over me~
With eternity gone you will inherit the meek, yeah
~Devil, devil all over me~

Gone through livin' just for dyin'
Gone through laughin', gone through cryin', hear what I say:
Tacked to a six by nine to please us
Look like you're what you want
You're a stone cold Jesus, a stone cold Jesus

You know I seem to lost my way, seem to happen everyday
Not sure where I'm goin' or where I been
You know it seems to cover me with full-blow mediocrity
Not sure where I'm goin' or where I sinned

In quiet desperation claw on my soul I feel them gnaw
Without hesitation render me
Unconscious in too much too soon, I long for days inside the womb
Without hesitation comfort me

I wait for salvation come, you know it keep me on the run
And put me in this place and keep me here
I know I got my cross to bear, I keep it with me everywhere
Keeps me in the race that keep me here

Got a stone cold Jesus...

Tacked to a six by nine to please us
Look like you're what you want
You're a stone cold Jesus, stone cold Jesus...
