

The Rip n' Tear

Overkill

You say it's raining
As you piss in my ear
You say it's pain inside
That fills you with fear

Right-right
Right-right
Right-right
Right-right

You say you had it
You can't find, it lost
You say you have it
I say gimme back my cross

Everybody movin from the right to the left
Everybody movin from the life to the death
Everybody movin from the good to the bad
Everybody movin from the happy to the sad
Everybody churnin and life ain't fair
Everybody movin to the rip n' tear

Right-right
Out of my way insanity
Right-right
Out of my really don't care
Right-right
Out of my way with your gimme-gimme
Right-right
Gonna do rip n' tear

It's right in front
And when I blink my eye
It's gone
I turn around, it turns around
And no ones standing
I catch a glimpse
Out of the corner of my eye
Turn back around
And no one ever going to
belive what I saw

It knocks me down
And when I blink my eye
It kills
I crawl around
Down on the ground
With no one living
I take a hit
Into the corner of my eye
I try to stand
And no one ever going to
Belive what I saw

It's right in front
And when I blink my eye
It's gone

I turn around, it turns around
And no ones standing
I catch a glimpse
Out of the corner of my eye
Turn back around
And no one ever going to
belive what I saw

Right-right
Right-right
Right-right
Right-right

Right or wrong, weak or strong
This is where we all belong
Don't you know that life ain't fair
Don't you know the rip n' tear

Everybody movin from the lick to the bark
Everybody movin from the light to the dark
Everybody movin from the right to the left
Everybody movin from the life to the death
Everybody churnin and life ain't fair
Everybody movin to the rip n' tear

Right-right
Out of my way insanity
Right-right
Out of my really don't care
Right-right
Out of my way with your gimme-gimme
Right-right
Gonna do rip n' tear
Right-right
