

Unholy

Overkill

Gimme, gimme, gimme some candy baby
I got the crave, I got to fill
Lemme, lemme, lemme some money, maybe
I'm gonna buy everything you sell
Take it on down, take what you want, yeah
Pay me later, gotta place to be
Move it on in, take it on over
What's that face, you know me

Here, but now it's gone
Here to carry on
Nothing more to say
Your mind has gone away
Unholy, fill the moment out
Of your mind
The dam has spilled the secret out
Deaf, dumb and blind

Wanna, wanna give ya what you're looking for
Make it all better like I did before, right
When you find, when you find that you got a choice
And the screams that you hear are your own voice
Turn it on up, turn it into stone
Love me later, gotta, gotta, gotta go
Move it on in, take it on home
Wipe that face, you don't know

Here, but now it's gone
Here to carry on
Nothing more to say
Your mind has gone away
Unholy, fill the moment out
Of your mind
The dam has spilled the secret out
Deaf, dumb and blind

Live your life
Live it through me
Leave your mind
Where it should be
Is the truth so hard to find?
Or is the truth out of your mind?

Here, but now it's gone
Here to carry on
Nothing more to say
Your mind has gone away
Unholy fill the moment out
Of your mind
The dam has spilled the secret out
Deaf, dumb and blind

Unholy fill the moment out
Of your mind
The dam has spilled the secret out
Deaf, dumb and blind
