

That Mouth

Owen

As your lover
I have my doubts
But you kiss your mother
With that mouth

You put it on me
Up and down me
We had a good time
Crossin' those lines

And now that we're good friends
It's becoming more and more clear
That your vampire boyfriend
Isn't going anywhere

You put me on
You put on a good show

At least I can
See myself in the mirror
At least I can
See myself in the mirror

At least I can
See myself in the mirror
At least I can
See myself in the mirror

At least I can
See myself in the mirror
At least I can
See myself in the mirror
