So I walk alone down the darkest roads Cause I've always known how this story goes When the curtain falls I'll be wearing thin Clawing at the walls as they're closing in

In this twisted world I was destined for I'm an astronaut on the ocean floor So misunderstood 'till the bloody end How I wish I could do it all again

It feels like I'm a lone survivor Forgotten in a dark and deadly world And on my own I walk alone To see the sun again I'd give anything

But life demands a final chapter A story that we all must leave behind It's do or die, and this is mine The anthem of a bird with a broken wing

It's another night of the living death Like a vapid bite in a spiderweb It's so deathly dark in the alleyway And a bleeding heart makes you easy prey

I would run and hide for the afternoon With the butterfly in the panic room Though I won't be missed, I would say it's time For a different twist in the story line

It feels like I'm a lone survivor Forgotten in a dark and deadly world And on my own I walk alone To see the sun again I'd give anything

A story that we all must leave behind
It's do or die, and this is mine
The anthem of a bird with a broken wing
The anthem of a bird with a broken wing
The anthem of a bird with a broken wing

Tell the world I know that my mind is made

It's a horror show, but I'm not afraid

Though I won't be missed, I would say it's time

Tistengram a different twist in the story line
