

# Can't Live Without You

Owl City

All the thoughts in my head spinning 'round like a hurricane  
And life leaves me so confused  
When I trip and I fall I collapse like a tidal wave  
So I'm crying out to you

You reached down out of nowhere  
And picked my heart up off the floor  
You put my life back together  
And I'm not broken anymore

You're my only wish for a dream come true  
And it goes like this: Will you come to my rescue?  
You're the only hope that I'm clinging to  
And I hope you know I can't live without you  
(I hope you know) I can't live without you  
(I hope you know) I can't live without you

When I'm hit like a hook to the jaw in a tidal fight  
I'm down and I'm knocked out cold, you know  
And with my heart broke apart like a wreck in a shallow tide  
Yeah I've never felt this low

You reached down out of nowhere  
And picked my heart up off the floor  
You put my life back together  
And I'm not broken anymore

You're my only wish for a dream come true  
And it goes like this: Will you come to my rescue?  
You're the only hope that I'm clinging to  
And I hope you know I can't live without you  
(I hope you know) I can't live without you  
(I hope you know) I can't live without you  
You're my only wish for a dream come true  
And it goes like this: Will you come to my rescue?  
You're the only hope that I'm clinging to  
And I hope you know I can't live without you  
You're my only wish for a dream come true  
And it goes like this: Will you come to my rescue?  
You're the only hope that I'm clinging to  
And I hope you know I can't live without you
