

Cloud Nine

Owl City

Pull the moon down with a lasso (Wo oh oh oh oh)
Make your ceiling full of stars glow (Wo oh oh oh oh)
I can sneak in through the window (Wo oh oh oh oh)
I could say it but we both know
You got me floating on cloud nine

Look up when the world gets you down
And you're gonna get by
Hang in when the world counts you out
And you're gonna be fine
Sometimes that's life
Some days nothing never goes right
But when your hand is mine
You got me floating on cloud nine

Meet the one who makes your heart stop (Wo oh oh oh oh)
Find a diamond in a gift shop (Wo oh oh oh oh)
Leave a little of a whole lot (Wo oh oh oh oh)
And you'll be shouting from the rooftop
You got me floating on cloud nine

Look up when the world gets you down
And you're gonna get by
Hang in when the world counts you out
And you're gonna be fine
Sometimes that's life
Some days nothing never goes right
But when your hand is mine
You got me floating on cloud nine

Hey baby are we almost there yet? (Wo oh oh oh oh)
How much cooler could my life get? (Wo oh oh oh oh)
Take my hand and take a deep breath! (Wo oh oh oh oh)
And we'll ride off until the sunset

Look up when the world gets you down
And you're gonna get by
Hang in when the world counts you out
And you're gonna be fine
Sometimes that's life
Some days nothing never goes right
But when your hand is mine...

Look up when the world gets you down
And you're gonna get by
Hang in when the world counts you out
And you're gonna be fine
Sometimes that's life
Some days nothing never goes right
But if your hand is mine
I'll be floating on cloud nine!

For the rest of my life
I'll be floating on cloud nine!
For the rest of my life...
