

Dear Vienna

Owl City

I regarded the world as such a sad sight
Until I viewed it in black and white
Then I reviewed every frame and basic shape
And sealed the exits with caution tape

Don't refocus your eyes in the darkness
And don't remember this place unless
I describe all the things that you cannot see
And we'll unravel the mystery

Farewell, all my friends in textbooks
I'm going home
'Cause my blood cells cannot depend
On the weather in photographs

There's a light show out my window
Somewhere way up there
Dear Vienna, are you singing?
Dear Vienna, are you swinging?

Dear Vienna, we were happy
Like the shades of May
When we got carried away

I was so far out of place
Watching those stars in outer space
'Cause I am so far from where you are

There's a light show out my window
Somewhere way up there
Dear Vienna, are you breathing?
Dear Vienna, are you dreaming?

Dear Vienna, we were happy
Like the shades of May
When we got carried away
