

# Up All Night

Owl City

I fell in love with a ghost  
Oh, under the moonlight  
You took my hand and held me close  
For once I was alright

I cried and the tears fell from my eyes  
Like a waterfall  
And I swear I could feel you in my arms  
But there was no one there at all

You were my clarity, I swear  
Alone in a daydream  
Yeah there was magic in the air  
And you were right here beside me  
Held down like an angel with no wings  
I wanna fly again  
I just can't get you off my mind  
And now I'm gonna be up all night  
Woah oh oh oh

Its tearing me up inside  
I just can't get you off my mind

I tossed and turned in the end  
With no one to talk to  
I searched again and again  
But I never found you

I cried and the tears fell from my eyes  
Like a waterfall  
And I swear I could feel you in my arms  
But there was no one there at all

You were my clarity, I swear  
Alone in a daydream  
Yeah there was magic in the air  
And you were right here beside me  
Held down like an angel with no wings  
I wanna fly again  
I just can't get you off my mind  
And now I'm gonna be up all night  
Woah oh oh oh

I'm gonna be up all night, woah oh oh oh  
I'm gonna be up all night  
I don't wanna say goodbye  
its tearing me up inside  
I just can't get you off my mind  
And now I'm gonna be up all night

Woah oh oh oh  
I'm gonna be up all night, woah oh oh oh  
I'm gonna be up all night  
I don't wanna say goodbye  
its tearing me up inside  
I just can't get you off my mind

You were my clarity, I swear  
Alone in a daydream  
Yeah there was magic in the air  
And you were right here beside me  
Held down like an angel with no wings  
I wanna fly again  
I just can't get you off my mind  
And now I'm gonna be up all night

(Gonna be up all night)  
(And now I'm gonna be up all night)

A whisper on the air  
Made my heart rate fall  
When I heard you call  
And I swear, I could hear your voice in my ear  
But there was no one there at all
