

# Jewels & Sapphires

Owl Eyes

Open your eyes  
Touch my hand  
This is all I've wanted  
This is my heaven  
When you lay in clouds or sheets  
I want to love you  
I can't help but realise this is what I knew

And I...  
I never wanted to run  
And I...  
there's something more than I get now  
And I...  
Tell you all the things I've been missing  
Tell you all the truths  
Tell you all the things I've been waiting for without you

Couldn't stay closed  
Sun outside  
All we feel is what we are, no reasons why

When you lay in clouds or sheets  
I want to love you  
I can't help but realise this is what I knew

And I...  
I never wanted to run  
And I...  
there's something more than I get now  
And I...  
Tell you all the things I've been missing  
Tell you all the truths  
Tell you all the things I've been waiting for without you

there's something more than I get now  
Get now (x30)

We dream we desire  
Dream we desire  
Give me this love

We dream we desire  
Dream we desire  
Jewels and Sapphires

I never wanted to run  
And I...  
there's something more than I get now  
And I...  
Tell you all the things I've been missing  
Tell you all the truths  
Tell you all the things I've been waiting for without you
