

Open Up

Owl Eyes

When you hold me
All these sweet lullabys
When our worlds meet
Nothing can tear us down

Feel our souls meet
I wait for you to open up
I wait for you with open arms

Touch me don't speak
I wait for you to open up
I wait for you with open arms

With these sweet words
You pull me further in
Stars blind my eyes
Sometimes don't see your sins

When you touch me when you hold me
Heads lie in the clouds
Will you tell me that you love me
Always be around

I don't love you
I don't want you
Just don't let me down

I don't love you
I don't need you
Please don't let me down

Feel our souls meet
I wait for you to open up
I wait for you with open arms

Touch me don't speak
I wait for you to open up
I wait for you with open arms

Watching the night sky
Watching the night sky

Watching the night sky
Watching the night sky

Feel our souls meet
I wait for you to open up
I wait for you with open arms

Touch me don't speak
I wait for you to open up
I wait for you with open arms

Feel our souls meet
I wait for you to open up
I wait for you with open arms

Touch me don't speak
I wait for you to open up
I wait for you with open arms

Feel our souls meet
I wait for you to open up
I wait for you with open arms

Touch me don't speak
I wait for you to open up
I wait for you with open arms

Watching the night sky
Watching the night sky

Watching the night sky
Watching the night sky
