

## Black Cats

Oxymoron

Shadowlike they haunt me at night  
Horrible dreams to grab my sleep  
Whatever I do, wherever I go  
They're always near beside

If these turn up there ain't no joy  
All I can's detroy  
If these turn up there ain't no joy  
Nothing works to scare 'em away

[Chorus:]

Black cats, black cats  
Always scary, how do I lose em'  
Black cats, black cats  
An evil omen - Black cats

Stumbling through the streets at night  
I was overcome again by this bothersome plague  
It didn't come off it's over now  
This was the final show  
If these turn up there ain't no joy  
All I can's detroy  
If these turn up there ain't no joy  
Nothing works to scare 'em away
