

## Under Pressure

Oxymoron

I guess you know this state of desperation  
when troubles get too much for you again  
the least you need is someone's provocation  
they'd better fuck off back where they belong

[Chorus:]

Fun, fun - this ain't no fun  
cos I am UNDER PRESSURE  
Done, done - I am so done  
I'm in a mess with everyone

Yes, I am UNDER PRESSURE  
cos I don't get along with me nor anyone  
Yes, I am UNDER PRESSURE  
and filled up with aggression  
Leave me alone cos I'm UNDER PRESSURE

I usually mean no harm to anybody  
but driven to the wall is another case  
if you are bugging me you will be sorry  
yeah then you'll come to know the other face

I guess you know this state of confusion  
when troubles are too much for you again  
you run around but find no solution  
and pressure's slowly eating up your brain  
This ain't no fun...
