

Alive

Oz

I'm flying across the city
And engines running hot
Driving like a fool
I'll never stop

Everything is motorized
Hungry eyes of steel
Searching for a game
Oh this is real

You never get another chance
Control's falling to the trance

Alive in the city of knights
Alive baby
Alive in the atomic dreams
Alive ooo...

Action takes it over
Just trying to please us all
This ain't no party time
Here's no recall

Sky is falling down
This is a naked place to stay
You've got to run to win
Is all I say

You are the children of the night
Nothing's there and you can't hide

Alive in the city of knights
Alive baby
Alive in the atomic dreams
Alive in your rock 'n' roll machine

You are the soldiers of the night
Nothing's there and you can't hide

Alive...
