

# Alive

Oz

I'm flying across the city  
And engines running hot  
Driving like a fool  
I'll never stop

Everything is motorized  
Hungry eyes of steel  
Searching for a game  
Oh this is real

You never get another chance  
Control's falling to the trance

Alive in the city of knights  
Alive baby  
Alive in the atomic dreams  
Alive ooo...

Action takes it over  
Just trying to please us all  
This ain't no party time  
Here's no recall

Sky is falling down  
This is a naked place to stay  
You've got to run to win  
Is all I say

You are the children of the night  
Nothing's there and you can't hide

Alive in the city of knights  
Alive baby  
Alive in the atomic dreams  
Alive in your rock 'n' roll machine

You are the soldiers of the night  
Nothing's there and you can't hide

Alive...
