Oz

I've seen the ashes still burning  
Wind in your hair as we run  
Pillows of smoke rising higher  
Trying to burn the sun

Red glow on the horizon  
Someone has made a mistake  
Passing the roofs of the skyline  
He made us shiver and shake

Don't wanna die in flames  
Anything else but the flames

We can't take the pain of  
Seeing the sea of flames  
Violent exploding compassion  
Got to get out of this place

Like a volcano erupting  
Fireballs making you blind  
Panic is ruling the streets now  
Don't know if I'm losing my mind

Don't wanna die in flames  
Anything else but the flames

Yesterday's gone  
-?  
Burning them all  
Yesterday's call

Firestarter, Firestarter, Firestarter  
Light it up

I've seen the ashes still burning  
Wind in your hair as we run  
Pillows of smoke rising higher  
Trying to burn the sun

Red glow on the horizon  
Someone has made a mistake  
Passing the roofs of the skyline  
He made us shiver and shake

Don't wanna die in flames  
Anything else but the flames

Yesterday's gone  
-?  
Burning the mall  
Yesterday's call

Yesterday's gone - Firestarter  
-? - Firestarter  
Burning the mall - Firestarter  
Yesterday's call - Firestarter

Firestarter  
Firestarter  
Firestarter

Fireeee, Fire
