

In The Chains

Oz

I'm in chains, in the chains
You make me feel something evil
I'm in chains, in your chains
I can't do any resolves
How can I wait much longer
My love is growing stronger
How can I wait much longer

Light in your eyes, light in tomorrow
Fight for the place, laugh for the sorrow
Lost every hour, lost many dreams
Cast another steel, oh, when I'm free

Kneel before the chains, steal my freedom
Find foolish woman, no she's my god
Fell like power lies in the steam
Wild little morrow, gays in the street

Light in your eyes, light in tomorrow
Fight for the place, laugh for the sorrow
Lost every hour, lost many sick dreams
Cast another steel, oh, when I'm free
