

Lost Generation

Oz

On and on
People don't know what they say
Lessons to learn
Oh, get out of my way
Get out of my way

Scratch and burn
Why does it feel okay
Hypnotized
Computers will bless our day
What did I say

Lost generation
Lost generation, yeah

Fools for the life oh, yes you are

Over and over
Over and over again
Time's running out
I can't remember when
You must understand

Lost generation oo-o
Lost generation yee

Listen... you are the one
So don't lose it all
You are, the fools for the life
Oh, yes you are the last in line

Lost generation oo-o
Lost generation fools for the life
Lost generation oo-o
Lost generation
