

# Midnight Lady

Oz

You ruin my days  
You ruin my nights  
Oh, you're like desire  
You tear out my heart  
You blinding my eyes  
Oh, you're like a fire

You knock me down  
And blow up my tears  
And the crowds going wild  
You're like a dance  
With hightechnic gears  
I think you've never been a child

Midnight lady  
These boys are burning, burning  
Midnight lady  
You never learn oh, you never learn  
Yes you do baby, you

You love by days  
you love by nights  
Oh, you never pray, yeah  
My heart beats faster  
Faster and faster  
No... no... no

I need no doctor and tools  
To cure decease this black  
Ain't got no thoughts  
Ain't no memo  
This is my only track

Midnight lady  
These boys are burning, burning  
Midnight lady  
You never learn ooo...oo

Straight up I feel this mountain shake  
Ooo...oo  
Get up, no heartache and pain  
Yeah

Midnight lady  
these boys will bring on the night  
Midninght lady  
you never learn
