

Not Enough

Oz

Hiding out falling one by one
Never see the shining
It's getting colder
Love from the streets are gone

I don't care what the people say
My body starts shaking
I'm gonna show to ya
I have a four wheel drive

Ooo... oo What the hell I say
Ooo... Now it's yesterday

Not enough, we play with fire
Boys gone wild
Not enough, side by side

Jungle lights gonna bring me down
There ain't no satisfaction
I'm getting older
It's better to hit and run

Freezing out falling one by one
Like a dog without a bone
It's getting colder
The love from the streets are gone

Ooo... What the hell I say
Ooo... Now it's yesterday

Not enough, we play with fire
Boys gone wild
Not enough, side by side
Not enough, we play with fire
Boys gone wild
Not enough, side by side

Woo... I love it

Not enough...

Love from the street are gone
Slow down you burn too fast
