

Rather Knight

Oz

Wake up in the morning
Take a whisky, take (the) three
Can't be free, can't be free
Walking to the bar and take
Another round, you see
Can't be free, can't be free

Rather knight, he loses his mind
When he's drinking all the time
Rather knight, he loses his mind

It's evening now, the thirty draw
Is going down, you see
Can't be free, can't be free
Warning came the hellish fever
Make shudder hate to be
Can't be free

First time better, second (the) best
Third one (the) worst to see
Can't be free, can't be free
Walking to the bar and take
Another round to see
He can't see
