

Roll The Dice

Oz

It takes away your freedom
It takes away your home
You're only hired
You're never getting old

This is a moment
You feel high society
Money's talking
It'll never set you free

And like lightning it takes you higher
You got to live it up or die

Feeling like the wizard
You hear the bells of hell
Is this the love baby
Like the story tell

And like lightning it takes you higher
You got to live it up or die

Roll the dice, for the lies in your mind
And the game will never end
Roll the dice, till there's nowhere to hide
Is this the day that heaven send oh, yeah

It takes away your freedom
It takes away your home
You're only hired
You're never getting old

Child to the money
Is born to walk alone
Beauty's skin deep
Ugly to the bone
And like lightning it takes you higher
You got to live it up or die

Roll the dice, for the lies in your mind
And the game will never end
Roll the dice, till there's nowhere to hide
Is this the day that heaven send
Roll the dice, for the lies in your mind
And the game will never end
Roll the dice, till there's nowhere to hide
Is this the day that heaven send
Oh, oh roll the dice
For the lies in your mind
