

# Roll The Dice

Oz

It takes away your freedom  
It takes away your home  
You're only hired  
You're never getting old

This is a moment  
You feel high society  
Money's talking  
It'll never set you free

And like lightning it takes you higher  
You got to live it up or die

Feeling like the wizard  
You hear the bells of hell  
Is this the love baby  
Like the story tell

And like lightning it takes you higher  
You got to live it up or die

Roll the dice, for the lies in your mind  
And the game will never end  
Roll the dice, till there's nowhere to hide  
Is this the day that heaven send oh, yeah

It takes away your freedom  
It takes away your home  
You're only hired  
You're never getting old

Child to the money  
Is born to walk alone  
Beauty's skin deep  
Ugly to the bone  
And like lightning it takes you higher  
You got to live it up or die

Roll the dice, for the lies in your mind  
And the game will never end  
Roll the dice, till there's nowhere to hide  
Is this the day that heaven send  
Roll the dice, for the lies in your mind  
And the game will never end  
Roll the dice, till there's nowhere to hide  
Is this the day that heaven send  
Oh, oh roll the dice  
For the lies in your mind
