

# Runaways

Oz

Silence in the city  
Kids are on the run  
Every boy and every girl  
Just having fun  
Hands are getting dirty  
Breaking all the rules  
Voices from the darkness  
Heals the deamons and the fools

No-no-no-no

Dancing in the moonlight  
No chance to get away  
That fire burning in their eyes  
Living day to day  
They're mamas fallen angels  
And shadows make 'em burn  
You want to live forever baby  
Oh no, you'll never learn

No-no-no-no

Night of the thousand eyes  
they are just the runaways  
They're talking to ya  
Night of the thousand eyes  
They are just the runaways

Everyboy's rocking  
Closer to the edge  
They're gasoline and fire  
Never want to rest  
Daddy's drunk 'n dirty  
They never couldn't choose  
Ain't looking back for nothing  
All the hell's breaks loose

No-no-no-no

Night of the thousand eyes  
they are just the runaways  
They're talking to ya  
Night of the thousand eyes  
They are just the runaways

Chorus...
