

# Thousand Miles

Oz

Another time, another place

The memories still survive

Face to face, feels so bad

I think I have lost my soul

I cannot do any better

I got those crazy dreams

I don't wanna surrender, jee-e

I know, we carry on together

And thousand miles

To go, we carry on forever

Thousand miles

Maybe wrong, maybe right

Running the streets of pleasure

I can't explain, it drives me mad

I hope you could understand

I cannot do any better

I got those crazy dreams

I don't wanna surrender, jee-e

I know, we carry on together

And thousand miles

To go, we carry on forever

Thousand miles

Take my hand, get burned inside

I used to say

And the world is cold as ice

But we got to stay

I know, we carry on together

And thousand miles

To go, we carry on forever

Thousand miles, thousand miles

To go, we carry on forever, forever

We carry on...
