

Turn The Cross Upside Down

Oz

Prince of darkness leads us all strike the Christians down
The unholy war, false prophet's call "death is all around"
Seven daggers must be hidden, master is in danger
The fruit that once was so forbidden is eaten by the stranger

We gather our forces and saddle the horses and ride to the night black
Satan's our god and we're out for blood, he salutes us with thunderous cracks
We got the armour and we got the men, don't need the good on our side
Nothing to lose, live or die, into the battle we ride

Turn the cross upside down
Feel the evil grow
Burn the churches to the ground
Satan's wicked show
Turn the cross upside down
No-one will be saved
Burn the churches to the ground
Thou shalt be depraved

This is the story and this is the glory, it has no good ending at all
Iron imprisons, gold shall set free, you cannot resist this call
He gave us the power, he gave us strength, we did what had to be done
No more true lies or reaching for skies, just one more night and we've won

Turn the cross upside down
Feel the evil grow
Burn the churches to the ground
Satan's wicked show
Turn the cross upside down
No-one will be saved
Burn the churches to the ground
Thou shalt be depraved

Turn the cross upside down, turn the cross (4 times)
Turn the cross upside down (4 times)

Turn the cross upside down
Feel the evil grow
Burn the churches to the ground
Satan's wicked show
Turn the cross upside down
No-one will be saved
Burn the churches to the ground
Thou shalt be depraved

Burn them to the ground
