

April 4

Ozark Henry

free and easy
love was never ever going to be so free
all's to share
the two of us along the evening sea
let it ray
love will be there
a summer siren addresses you and me
all's to share
we're making out to be in each other's dream
every day
let it ray
i want you to know
every day's your birthday
i want you to see
love's on either hand
i want you to know
every day's your birthday
love is our freedom
it makes us understand
free and easy
love was never ever going to be so free
all's to share
we're making out to be in each other's dream
every day
let it ray
i want you to know
every day's your birthday
i want you to see
love's on either hand
i want you to know
every day's your birthday
love is our freedom
it makes us understand
i want you to know
everday is yours
