

Free Haven

Ozark Henry

A little pill takes its course
puts the cart before the horse
here upon these roads

it gets you high it gets you down
this little help is but a clown
i hope by now you know

you can have it
you can have it
true bliss

you can have your own free haven
you can have your own
so take it
make it

it won't fail you
it will save you on a grey day

i hope one day life will win
and signal to you to pull in
and take you off these roads
to acquit and to become
one with what you drag along
a youth in reds and golds

you can have it
you can have it
true bliss

you can have your own free haven
you can have your own
so take it
make it
it won't fail you
it will save you on a grey day

i'll adjust to your reds and golds
you can have your own free haven
you can have your own
so take it
make it
it won't fail you
it will save you on a grey day

on a bus there's a sign
saying you can trust us right
you are not alone
