

Le Temps Qui Reste

Ozark Henry

We trail the sun like carefree rovers
with nothing more than what we wear,
day-to-day
We fall in love, we fall in clover
We come to be all that we share eagerly

Summer's starting here
We are making plans
We are making out unafraid
On a holiday, at some motor inn
A night on the town, we make sail
Unafraid

On the line we talk it over
A sum of low words we've exchanged eagerly

It is starting here
We are making plans
We are making sail unafraid
All is cool and sound
Sky ain't coming down
With every thought you mount all is safe

Anyway it's all in your mind (2x)

If I'm offending you, give away
Tell me what it takes to make your day
Take up with me, in your mind's eye
I'm holding on, holding on for you

All is starting here
And all is making plans
And all is making out unafraid
Much to my surprise
Sky ain't coming down
With every dream you mount we are safe.
