

Sweet Instigator

Ozark Henry

Anyway the water turns
You're always on my mind
Sweet instigator
Anyway the water turns
You're always on my mind
Dear isolation

(You) make me beautiful
You give inspiration
(You) make me beautiful

Know that you can never let me down
We're to sail and see the world right now
Know that you can never let me down
We're to sail and see the world right now

Anyway the water turns
You're always on my mind
Sweet instigator
Anyway the water turns
You're always on my mind
Sweet isolation

(You) make me beautiful
You give inspiration
(You) make me beautiful
Sweet instigator

Know that you can never let me down
We're to sail and see the world right now
Know that you can never let me down
We're to sail and see the world right now
'Cause you're all I ever wished for
And that's You, You, You
'Cause you're all I ever wished for
And that's You, You, You

(You) make me beautiful
You give inspiration
(You) make me beautiful
Any way the water turns
You're always on my mind

You made all this
Because you made all this
