

## Sweet Instigator

Ozark Henry

Anyway the water turns  
You're always on my mind  
Sweet instigator  
Anyway the water turns  
You're always on my mind  
Dear isolation

(You) make me beautiful  
You give inspiration  
(You) make me beautiful

Know that you can never let me down  
We're to sail and see the world right now  
Know that you can never let me down  
We're to sail and see the world right now

Anyway the water turns  
You're always on my mind  
Sweet instigator  
Anyway the water turns  
You're always on my mind  
Sweet isolation

(You) make me beautiful  
You give inspiration  
(You) make me beautiful  
Sweet instigator

Know that you can never let me down  
We're to sail and see the world right now  
Know that you can never let me down  
We're to sail and see the world right now  
'Cause you're all I ever wished for  
And that's You, You, You  
'Cause you're all I ever wished for  
And that's You, You, You

(You) make me beautiful  
You give inspiration  
(You) make me beautiful  
Any way the water turns  
You're always on my mind

You made all this  
Because you made all this
