Ozark Henry

weather's great for the time of year  
and i'm glad we can share being here  
i tattoo you, you tattoo me  
we restore our souls  
we set off down  
as summer leads the way  
it rushes on us  
it's more than a game  
i tattoo you, you tattoo me  
anyway

anyhow

interest in life is free  
bring it on, bring it on  
interest in life is free  
bring it on, bring it on  
interest in life is free

we put it down  
every single curve  
and every move that rocks us through this  
i tattoo you, you tattoo me  
we restore our souls  
we set off down  
as summer leads the way  
it rushes on us  
it's more than a game  
i tattoo you, you tattoo me  
anyway  
anyhow  
interest in life is free  
bring it on, bring it on

are we never to have pleasure  
never ever to have faith  
never to let the imagination fulfil itself  
whatever it takes?  
are we never to have leisure  
never ever to feel safe  
never to let the imagination fulfil itself?

interest in life is free
