It's happening all over again

Someone broke the locks and let the dogs out of the pen

Sound the alarms and let the fun begin

You thought my bark was worse than my bite

But this time i won't be beat before the start of the fight

Leash is too tight

Gonna bite it off

All bad dogs go to doggy hell All bad cats go to kitty hell

A thousand dogs are loose in the night You say they're for protection but you use them to fight Won't see the light until we turn it off

All bad dogs go to doggy hell
All bad cats go to kitty hell
Goodbye my friends, i wish you well
All bad dogs go to doggy hell
