

# Coming War

Ozomatli

We see a coming war  
We see a coming war

Now...

Can you imagine this world with no oppression?  
And no need to dabble in greed and transgression  
The solution for murder and prostitution  
Never glorify this pollution on television  
Corrupt an entire nation

Explicit images  
Never freeing Mumia regardless of proven innocence  
Turning to crime and not using intelligence  
What makes me wonder sometimes are we in hell or

Inches away from confronting the powers that be  
Saw in seconds what has taken some hours to see  
Temps is hot enough to melt a bullion  
More than a million people are ready  
For rebellion  
This shit is ill  
Sun set to the crack of dawn  
If you're black or blonde  
Uncle Sam is robbing you blind and putting shackles 'pon  
The minds of your children for real son  
Beware this system and go to war with this institution

They expect those of us who peep to not see  
Medical benefits should be cheap if not free (right?)  
The richest people are those without morals  
'cause once they get inside they tend to keep the door closed

Lord knows they killing us quick and clean  
From baseheads to people addicted to nicotine  
Man-made diseases where skin cells corrode  
To ones where if infected you die from common colds

Economical foes they pose the true threat  
Using your tax dollars to sell and produce death  
What's left?

We got guns and drug trafficking  
Government will be backing  
And blaming Latin and African brothers for dirty work done  
The shit they do not only hurts young  
But it's provoking revolutionary circum-  
Stances  
Slow like molasses  
This is a message to the masses  
Never ass kiss

Emergency, emergency, evacuate the premises immediately  
Emergency, emergency

Now...

Open your ear  
Cause slavery will appear

When corporate cutthroats control your career  
The treats of life are toned and ain't no way the ripple fix  
Beware the microchip that replaces the triple six  
Which one?

Are you a soldier who fights against fraud  
Or pawns in this game on this government's chess board?  
The signs are clearly defined  
It's merely your mind state  
Wars coming my people so stay awake
