

# Let Me Dream

Ozomatli

Woke up late today  
Turn on the TV  
I don't like what I see

Too much politricks  
Not much reality  
Will they ever here my plea?

Leave me alone, let me dream  
I just want to change this world  
Just let me dream

Woke up late again  
Don't got no time to breathe  
Will I ever shake this theme?

Just got to face the day  
This world is just too cruel  
But all I want to do is dream

Leave me alone, let me dream  
I just want to change this world  
Just let me dream

I just want to change this world  
But I ain't got no time to breathe  
I just want to change this world  
By changing what's inside of me
