

Lay Your World On Me

Ozzy Osbourne

1. I know you think you're all alone
I haven't been there when you've needed me
I didn't deserve the love you gave
But now I'm telling you I'm here if you need a friend

R: Give me your pain
Give me your anger
Let me be your rock
I can be the pillar of strength that you need
I'll help you keep it all together
It's better late than never
Lay your world on me
I can take the weight

2. Don't let it twist you up inside
Time never fails to make the heartache stop
You've got to let those feelings go
I'll give you everything I can if you say the word

R: Give me your pain...

We all laugh and we all cry
We all hurt the same inside
We all fall down and we lose faith in who we really are
But if we bend instead of break
The choice for us is to make it together

Lay your world on me

I'll help you keep it all together
It's better late than never
Lay your world on me
Lay your world on me
Lay your world on me

I can take the weight
