

Draw the Line

P.o.d.

Brothers and sisters,
We're gonna draw the line
To forget about the problems abroad.
But in the end we all have problems of our own,
Gangs, crack, racism
And many people don't have hope
It probably don't matter much to you
In the struggles, the times that we live
But you don't know your future
So you better take time to give.

Who's gonna draw the line?
We're gonna draw the line.
Together,
Forever and Ever

You must be thinking I can't do a thing
But look at me, I help when I sing
Where men can make a difference
Like Caesar, Chavez and Doctor King
We all have the ability
To release a positive capability
Where youth is our responsibility
It's time to take a stand.

Who's gonna draw the line?
We're gonna draw the line.
Together,
Forever and Ever

Brothers and sisters,
We're gonna draw the line to make people change
But yo I'm optimistic,
Down with positivity
This is a struggle
So prepare to fight

Who's gonna draw the line?
We're gonna draw the line.
Together,
Forever and ever
