

## Mark My Words

P.o.d.

Checkmate, pull the plug on a fake  
Get to steppin too late, gotta take em, break em down  
One testify, see the fire in his eyes  
We determine the ghost when a warrior cries that sound  
Spirit flips, soul spits. Meditate on the words from the King's lips  
Apocalyptic, psalm scripted, prophet's eyes  
Armageddon come quick, It's a death wish, of a white witch  
Come inside and I'll tell you were the beast live  
Come inside and I'll tell you were the beast live

Soul that's raised by a rush through your veins  
Gonna bring the pain, You can see it's goin down  
Frontline, nobody left behind. Rebel soul, let em know  
when it's time you better hold your ground.  
Regulate, interrogate, cause the enemies loose and he's out for the t  
ake  
Under no faith, leaving no trace, another one took by an old hate  
It's a death wish, of a white witch  
Come inside and I'll tell you where the beast live  
Come inside and I'll tell you where the beast live

Who's got that witch? Who's got that witch? Who's got that witch?  
Who's got that witch? Who's got that witch? Who's got that witch?  
Who's got that witch? Who's got that witch? Who's got that witch?  
Who's got that witch? Who's got that witch? Who's got that witch?  
Who's got that witch? Who's got that witch?

Be not far from me,  
For trouble is near,  
And there is none to help.
