

## Set It Off

P.o.d.

Our time has come, watch me set it off  
It's been a while but we back  
So you can count it loss

We lay and wait, don't hesitate  
When opportunity knocks  
Break the locks and rush the gates  
Seize the day, we got moves to make  
It's got to be now  
Cause we're half past late

Say what you say, but you ain't shown me nothin  
If you want me to feel you  
Then you best to show me something  
All bark and no bite, talking all hype  
I hang with the illest  
You I don't recognize

Desensitize and paralyze  
Sabotage headquarters  
Flood your bloodlines, we sterilize

Here we come  
Chant down dem Babylon  
The wicked man when he sees me I go run  
Me understand  
Why dem cowards don't want none  
Underground blaze the sound to Armageddon

RISE - Let your spirit fly  
RISE- Stand up for yourself  
RISE- Hold your head up high  
(2x)

Our time has come  
Set it off

Choose my battles, unravel your crew  
Dismantle, they still can't handle or fathom  
What I throw at 'em

I can't imagine, they babblin'  
Acting like I'm laughing, don't find it funny  
But I smile at your sarcasm

You plastic, so tragic, you fake  
So you mask it, no gimmicks, no antics  
We real and we've outlasted

Your phoniness, so you best to come correct  
You want to disrespect  
Why do cowards talk the loudest

Papa didn't raise no punk  
On everything I love, if you ready  
Then come and get it son

Overpower the strong tower  
Infiltrate top ranks  
Count down the final hour

Here we come  
Chant down dem Babylon  
The wicked man when he sees me I go run

Me understand  
Why dem cowards don't want none  
Underground blaze the sound to Armageddon

RISE - Let your spirit fly  
RISE- Stand up for yourself  
RISE- Hold your head up high

We made it this far don't you quit on me

RISE - Let your spirit fly  
RISE- Stand up for yourself  
RISE- Hold your head up high
