

Hurricane

P9

It feels good, don't it baby?
You wanna write my name on it
You got me feeling just the same baby
When I'm with you

And when I'm going too long
My body starts shutting down
Now I gotta do, I gotta do
Woah oh

Nothing's gonna keep me away from you
No, nothing's gonna stop me now
Nothing's gonna keep me away
Not even a hurricane

I'll do whatever I got to do
No need to check the lost or found
Nothing's gonna keep me away
Not even a hurricane

It's all so simple baby
I try to say I can't live without ya
You take the words outta my mouth baby
When I'm with you

And when you're going too long
I might've just to track you down
Just to bring us together, no one knows better
No matter the weather

Nothing's gonna keep me away from you
No, nothing's gonna stop me now
Nothing's gonna keep me away
Not even a hurricane

I'll do whatever I got to do
No need to check the lost or found
Nothing's gonna keep me away
Not even a hurricane

Oh no no no
Oh no no no
Oh no no no
Oh no, not even a hurricane

Oh no no no
Oh no no no
Oh no no no (no, nothing's gonna stop me now)
Oh no no no

Oh no no no (nothing's gonna keep me away from you)
Oh no no no (no, nothing's gonna stop me now)
Oh no no no (nothing's gonna keep me away)
Oh no (not even a hurricane)

Oh no no no (I'll do whatever I got to do)
Oh no no no (no need to check the lost or found)

Oh no no no (nothing's gonna keep me away)
Oh no (not even a hurricane)
