I'm a flower - smell me
One thing is certain - that is my destiny
Nourish me - and I will bring you happiness

You are my water - drown me
When we're together, there is harmony
Be with me - and all there'll be is hope and lust

Here I'm standing - naked
Your search for answers will end in agony
"loves me not or loves me do" - a game in vain

Here I'm standing - withered
Thought I could keep you, made you a part of me
Miserly absorbed your false tears
"Cried for me"
