How could you do this to me?
How could you treat me this bad?
Why did you do this to me?
Why did you break this thing we had?

I put my trust in you
And always asked you what to do
All I wished was for good
Instead you pushed me down into this mood
So let me ask you just why:
- At first you promised me the sky
It was the biggest of lies
Your own sad truth in disguise

How could you do this to me?
How could you treat me this bad?
Why did you do this to me?
Why did you break this thing we had?
How could you do this to me?
How could you treat me this bad?
Why did you do this to me?
Why did you break this thing we had?

Just wanna lie down and die
You are the first one to make me cry
But instead I slowly rise
Want you to get out of my sight!

Leave me alone!
