

Reality

Paatos

a billion and one realities
and every one is true
who is right and who is wrong?
who's got the right to rule?

a million and one mentalities
one for each and every one
who is sick and who is sane?
who's got the right to tell?

don't claim you understand me
don't tell me you know how i feel
the way i see a situation
is my reality

you can't move into my mind
-my private universe
but you can come and visit me
in my reality

don't claim you understand me
don't tell me that you know how i feel
the way i see a situation
is my reality
