

# Can't You Hear The Music?

Pablo Cruise

I can see your leaving  
You're leaving through the setting sun  
You used to be a friend of mine  
Now it seems your on the run

You have changed your life  
When good went out the door  
Can't you hear the music playing anymore  
Cant you hear the music any more

I used to be believing  
I believed in every word you'd say  
You use to turn my head around  
You amazed me with your different ways

You were so close to me  
What made you change your mind  
You used to hear the music playing  
You used to hear the music playing

All the times, whoa  
Can't you hear the music anymore  
Like before, oh  
Cant you hear the music anymore

And now that you have left me  
You left me with your memories  
Oh, I'm not gonna change my mind, no no  
I remember how it used to be

When you just might realize  
Come good to life through my door  
You can hear the music playing  
You can hear the music playing

Like before, whoa  
Can't you hear the music anymore
