

# Never Had A Love

Pablo Cruise

There's been a hundred if there's been one, whoa, oh,  
And they've all been nice for a while, uh huh, yea  
But then one day, I call on you  
And I got to let ya know  
That there's a feeling inside that I can't explain  
But id like to let it go

Cause I've never had a love like this  
No I never had a love like this  
And I can't explain the way it feels but it feels right, yea

Infatuation usually wears off soon, whoa,  
And then you split and go on your way, yea,  
But this has been going on for too long  
To be just another fling  
And I could wait between two nighters to say that I don't care  
But that doesn't really mean a thing

Cause I've never had a love like this  
No I never had a love like this  
And I can't explain the way it feels but it feels right, yea

No I never had a love like this  
No I never had a love like this  
And I can't explain the way it feels but it feels right yea

I tried to make a love work out, yea,  
Well I guess it wasn't supposed to happen then  
Or I didn't find out how  
Or the feelings weren't just broken in  
Well I know were working now

Cause I've never had a love like this  
No I never had a love like this  
And I can't explain the way it feels but it feels right, yea

No I never had a love like this  
No I never had a love like this  
And I can't explain the way it feels but it feels right, yea
