

Raging Fire

Pablo Cruise

I can see, you and me
livin together in harmony
and i say ohh its alright
i can hear, you and me girl
singing the sweetest songs
and i say it makes me feel alright

our love is like a raging fire
youve got me burning with desire
your love has lifted me higher
then have i ever been before, before, before

and as each day passes us by
i fall in love with you again
and i know, our love will never end
and as i reach for you and the sun is gone
you know ill always be there
to warn you, and hold you through the night

our love is like a raging fire
youve got me burning with desire
your love has lifted me higher
then have i ever been before, before, before

i can see, you and me
livin together in harmony
and i say it makes me feel alright
ohhhh

our love is like a raging fire
youve got me burning with desire
your love has lifted me higher
then have i ever been before, before, before
