

Here We Go

Paddy and the Rats

Only the light goes on in front of the progress
They cover the way out of their social madness
Governing body has no human soul
Poison white mind with several drugs no more!

Here we go, Against the law
Here we go, Against the law

The panic on the street sips molotov cocktail
Underground movements shake up the subway
For the pleasure of flesh light cannibal fires
Take all the bricks ,
Coz yer wall must break down, no more !

Here we go, Against the law
Here we go, Against the law
Go On! We're gonna run to fall
But no more! Here we go

Radio's a sound of the sublime terror
Primal warlocks handling of the media's error
Temples 're being built for the police state
Their control became today a physical pain, no more!
